

B.H.M.S. [1st Prof.]

[Direct Course]

BF/2007/11

Anatomy - A

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

Illustrate your answers with suitable diagrams.

1. **Describe Muscles of mastication under the following headings:**
 - i) Origin [6]
 - ii) Insertion [6]
 - iii) Nerve supply [2]
 - iv) Action [6]

2. **Describe Cerebellum under the following headings:**
 - i) Cerebellar nuclei. [10]
 - ii) Functions of Cerebellum. [10]

3. Name the muscles of Flexor compartment of Forearm. Describe their origin and insertion. [15]

4. Describe the formation, branches and applied anatomy of Brachial plexus. [15]

5. **Write short notes on (any FOUR):** [4x5=20]
 - a. Eustachian tube.
 - b. Claw hand.
 - c. Corpus Callosum.
 - d. Lacrimal apparatus.
 - e. Paranasal sinuses.

97

B.H.M.S. [1st Prof.]
[Direct Course]
BF/2007/11

Anatomy - B
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Describe the parts, lobes, relations and age changes of the Prostate.
[15]
2. **Describe in detail :**
 - a. Describe branches of femoral artery. [7]
 - b. Bronchopulmonary segments of Right lung. [8]
3. Describe gross features, Posterior relations & blood supply of Stomach.
[15]
4. **Describe shortly on:**
 - a. Sites of constriction of Oesophagus. [8]
 - b. Structures attached on Superior surface of tibia. [7]
5. **Write short notes on:** [5x6=30]
 - a. Relations of Right Kidney.
 - b. Visceral relation of Liver.
 - c. Pudendal canal.
 - d. Popliteus muscle with its nerve supply.
 - e. Varicose veins.

48

B.H.M.S. [1st Prof.]

[Direct Course]

BF/2007/11

Physiology - A

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Write in detail about Cardiac output. How it can be measured. [18]
 2. Define Hypoxia. Write in detail about different types of Hypoxia. [18]
 3. Discuss the physiology of Pain Sensation. [18]
 4. **Discuss in brief[any FOUR]:** [4x4¹/2=18]
 - a. Functions of R.E. system.
 - b. Simple diffusion.
 - c. Mismatched transfusion.
 - d. Histology of Spinal Cord.
 - e. Colour blindness.
 5. **Writes short notes on[any FOUR]:** [4x4¹/2=18]
 - a. Core & shell.
 - b. G.F.R.
 - c. Function of Kidney.
 - d. Pacemaker.
 - e. Plasma protein.
-

B.H.M.S. [1st Prof.]
[Direct Course]
BF/2007/11

Physiology - B
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. **Write notes on:** [4¹/₂×4=18]
 - a. Glycolysis.
 - b. Osteomalacia.
 - c. Microglia.
 - d. Formation of C.S.F.
2. **Write notes on:** [4¹/₂×4=18]
 - a. Broca's area.
 - b. Function of Pyramidal tract.
 - c. Diabetes insipidus.
 - d. Cushing's disease.
3. **Write notes on:** [2×9=18]
 - a. Function of Parathormone.
 - b. Function of glucagon.
4. **Write notes on:** [3×6=18]
 - a. Action Potential.
 - b. Function of Lateral Spinothalamic tract.
 - c. Define Co-enzyme.
5. **Write notes on:** [2×9=18]
 - a. Kreb's cycle.
 - b. Function of TSH.

[Direct Course]

BF/2007/11

Homoeopathic Pharmacy

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt TWO questions from Each Section.

Section-A

1. What is the originality and speciality of Homoeopathic Pharmacy. [15]
2. Discuss the sources of homoeopathic drug. Explain Nosodes in detail with examples. [15]
3. Write short notes on: [3x5=15]
 - a. Sarcodes.
 - b. Synonyms
 - c. B.H.P.

Section-B

4. Define Vehicle. Mention Vehicle used for potentisation of homoeopathic medicine. [15]
5. Discuss the evolution of concept of Potentisation. Explain the trituration in detail. [15]
6. Write short notes on: [3x5=15]
 - a. Spatula and Spoon.
 - b. Mortar and Pestle.
 - c. Percolator.

Section-C

7. What is Prescription writing. Describe different parts of prescription with example. [15]
 8. Write short notes on: [3x5=15]
 - a. Posology.
 - b. Drug and cosmetic act-1940
 - c. TLC
 9. Discuss the guidelines for drug proving given by Dr. Hahnemann in Organon of Medicine. [15]
-

51

B.H.M.S. [1st Prof.]

[Direct Course]

BF/2007/11

Organon of Medicine

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt any SIX questions.

1. What do you understand by "Knowledge of physician" Describe in detail. [15]
2. **Describe:** [3x5=15]
 - a. Modus Operandi of cure in homoeopathy.
 - b. Unprejudiced observer.
 - c. Maintaining causes.
3. **Describe:** [3x5=15]
 - a. Vital force.
 - b. Therapeutic law of nature.
 - c. Mission of Physician.
4. Write in detail about Homoeopathy, Allopathy and Antipathy. Why homoeopathy is considered as superior than other systems of medicine. [3x5=15]
5. What is "Totality of symptoms"? Describe its significance in homoeopathy. [15]
6. Define Personality and discuss different theories of Personality. [15]
7. **Write short notes on:** [3x5=15]
 - a. Dreams.
 - b. Ideal cure.
 - c. Hahnemann's contributions in the field of homoeopathy.

52

BE/2007/11

Homopathic Materia Medica
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Describe the different sources of homoeopathic Materia Medica. [20]
2. Write down the Fever symptoms of: [4x5=20]
 - a. Ferrum Phos.
 - b. Rhustox.
 - c. Arnica
 - d. Bryonia.
3. Describe the Babies of: [2x5=10]
 - a. Ant Crud.
 - b. Aethusa Cyna
4. Write down the symptoms of Diarrhoea of: [4x5=20]
 - a. Aloes Soc.
 - b. Arg Nit.
 - c. Apis Mel
 - d. Dulcamara.
5. Describe the following medicines: [4x5=20]
 - a. Ledum in Injury.
 - b. Rhustox in Cough.
 - c. Silicea in Headache.
 - d. Calc Flour in Skin.

B.H.M.S. [2nd Prof.]
[Direct Course]
BF/2007/11

Pathology - A
[New Scheme]

M.M. : 45

Time : 3 Hours

Note : Attempt all questions. Draw suitable diagrams wherever necessary.

1. Describe disorders of Calcium and Fat metabolism. [4½, 4½]
 2. Write in brief: [3x3=9]
 - a. Melanosis.
 - b. Fat embolism.
 - c. Inflammatory exudate.
 3. Comment on: [3x3=9]
 - a. Clinical effects of Peptic Ulcer.
 - b. Outcome of acute Renal failure.
 - c. Hypertension.
 4. Describe Renal function test in relation to homoeopath. [9]
 5. Write short notes on: [3x3=9]
 - a. Fibroadenoma.
 - b. Fate of Bronchial asthma.
 - c. Pathological changes in Rheumatoid arthritis.
-

54

B.H.M.S. [2nd Prof.]
[Direct Course]
BF/2007/11

Pathology - B
[New Scheme]

M.M. : 45

Time : 3 Hours

Note : Attempt all questions. Draw diagram wherever required.

1. Give the morphology and life cycle of *Taenia Solium*. Discuss the diagnosis of Tapeworm infection. [5+5+5=15]
2. Describe the morphology and culture characteristics of *Staphylococci*. Describe the pathologic changes produced by *Staphylococci*. [5+5+5=15]
3. Write short notes on any THREE: [3x5=15]
 - a. Staining of *Mycobacterium*.
 - b. Tissue embedding.
 - c. Chemical sterilization.
 - d. Hepatitis B virus.

B.H.M.S. [2nd Prof.]
[Direct Course]
BF/2007/11

Materia Medica
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. **Write down the Mental symptoms of the following drugs:**
a. Nux Moschata.
b. Arsenic Album.
c. Antimonium Crudum. [3x5=15]
 2. **Give the indications of the following drugs:** [3x5=15]
a. Spongia Tost in Cough.
b. Cholera of Camphora.
c. Cactus g in Heart.
 3. **Write the Respiratory symptoms of the following drugs:** [3x5=15]
a. Hepar Sulph.
b. Arum triphyllum.
c. Arsenicum Album.
 4. **Write the characteristic symptoms of the following drugs:** [3x5=15]
a. Natrum Sulph.
b. Sepia.
c. Phytolacca.
 5. **Give the indications of the following drugs:** [3x5=15]
a. Vomiting of Bismuth.
b. Leucorrhoea of Ammon Mur.
c. Heart symptoms of Digitalis P.
 6. **Compare between:** [3x5=15]
a. Headache of Nat Carb and Ignatia.
b. Cough of Bromium and Hepar Sulph.
c. Menstrual symptoms of Actaea Racemosa and Ammon Carb.
-

56

B.H.M.S. [2nd Prof.]
[Direct Course]
BF/2007/11

Forensic Medicine
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Enumerate various points used to estimate postmortem interval. Discuss the importance of 'Changes in the eye' in determining time since death.
[15]
 2. Write short notes on: [3x5=15]
 - a. Dying declaration.
 - b. Extradural haemorrhage.
 - c. Diatoms.
 3. Differentiate between: [3x5=15]
 - a. Illusion and Hallucination.
 - b. Antemortem and Postmortem wounds.
 - c. Ligature mark in Hanging and Strangulation.
 4. Describe the mechanism of action, treatment and medicolegal importance of Carbon Monoxide poisoning. Give characteristic postmortem appearances in case of such a death.
[15]
 5. Classify Firearms. Describe findings at the 'entry wound' from a rifled firearm discharged at 'close range'.
[15]
 6. Enumerate the presumptive, probable and positive signs of Pregnancy.
[15]
-

57

B.H.M.S. [2nd Prof.]
[Direct Course]
BF/2007/11

Organon of Medicine
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt any SIX questions.

1. Explain ideal of Cure in detail. [15]
 2. Explain theory of Chronic diseases, their nature and homoeopathic treatment. [15]
 3. Explain homoeopathic case taking in brief. [15]
 4. Write short notes on: [15]
 - a. Mental general symptom.
 - b. Surrogates.
 - c. Accessory symptoms.
 5. Explain:
 - a. Modus Operandi of homoeopathic cure. [10]
 - b. Hypochondric patient. [5]
 6. Explain:
 - a. Unprejudiced observer. [10]
 - b. Higher purpose of our existence. [5]
 7. Write short notes on: [3x5=15]
 - a. Preserver of Health.
 - b. Materia Medica Pura.
 - c. Maintaining cause.
-

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Organon of Medicine
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Asthma is related withMiasm. Elaborate the relationship. [15]
 2. What is Repertory? How it helps a physician in finding a Similinum. [15]
 3. Write in detail about drug potential. [15]
 4. What is the prognosis of aggravation of symptoms? [15]
 5. What is Suppression? How you will treat it. [15]
 6. Write short notes on: [15]
 - a. Life.
 - b. Perceiving.
 - c. Concomittant symptom.
-

[illegible]

60

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Obstetrics & Gynaecology - A
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. What are the different stages of Labour. Discuss the important events in First stage of labour. [20]
2. Write notes on: [20]
 - a. Eclampsia.
 - b. Placenta Praevia.
3. What are the different types of Uterine Fibroid. Discuss the clinical features, diagnosis, differential diagnosis and management of Uterine fibroid. [20]
4.
 - a. What are the various causes of Abortion. [5]
 - b. Indications of Sepia and Natrum Carb in female infertility. [5]
 - c. Mechanism of Normal labour. [5]
 - d. Discuss two homeopathic remedies for Hyperemesis Gravidarum. [5]
5. Write down any TWO: [10]
 - a. Abnormalities of Cord.
 - b. Intrauterine contraceptive devices.
 - c. Involution of Uterus.
 - d. Dilatation and evacuation.

61

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Obstetrics & Gynaecology - B
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Enumerate the causes of Menorrhagia. How will you manage a case of Fibroid Uterus in a woman of 35 yrs age. [18]
 2. Write notes on : [3x6=18]
 - a. Bacterial Vaginosis.
 - b. Bowen' disease.
 - c. Adenomyosis.
 3. Write short notes on: [3x6=18]
 - a. Laparoscopy.
 - b. Hysterosalpingogram.
 - c. Dysgerminosis.
 4. What are etiology, pathology, clinical features of Pelvic Endometriosis. Discuss the principles of its management. [18]
 5. Write short notes on: [3x6=18]
 - a. Asherman syndrome.
 - b. Blood supply of Uterus.
 - c. Radical hysterectomy.
-

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Obstetrics & Gynaecology - C
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Write management of lady after delivery upto 1st week of Puerperium.
[20]
 2. Write description: [20]
 - a. five medicines for Calcium supplementation.
 - b. Five medicines for Anaemia.
 3. Describe Menopausal syndrome management with Lachen's and Graphitis.
[20]
 4. Describe: [20]
 - a. Management of Dysmenorrhoea.
 - b. Management of Menorrhagia.
 5. Explain management of Breast feeding and minor ailments related with lactation by 5 remedies.
[10]
-

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Surgery - A
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt any FIVE questions.

1. Define Gangrene. Describe etiology, signs & symptoms and management of Burger's disease. [18]
 2. Define Shock. What are the causes of Shock. Give an account of pathophysiology, clinical features and management of Hypovolemic shock. [18]
 3. Discuss the etiology, clinical features, prophylaxis and treatment of Tetanus. [18]
 4. Define Burn. Discuss its degree, percentage and principles of management. [18]
 5. Describe the Corneal Ulcer in detail. [18]
 6. Write short notes on [any THREE]: [3x6=18]
 - a. Deep Vein Thrombosis.
 - b. Cold abscess.
 - c. Haemangioma.
 - d. Aneurysm.
-

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Surgery - B
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Discuss differential diagnosis of Dysphagia. [18]
 2. Discuss the etiology, clinical features, complications investigations and management of acute Pancreatitis. [18]
 3. Describe the etiology, pathology, clinical features, diagnosis and management of Chronic Osteomyelitis. [18]
 4. What is Stridor? Explain the differential causes, investigations and management of Stridor. [18]
 5. Write short notes on any THREE: [3x6=18]
 - a. Thyroglossal cyst.
 - b. Pyloric Stenosis.
 - c. Lung abscess.
 - d. Dental cyst.
-

65

B.H.M.S. [3rd Prof.]
[Direct Course]
BF/2007/11

Surgery - C
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Define the Abscess. Give four homoeopathic medicines with indication. [18]
 2. What are the types of Gangrene and give their homoeopathic management. [18]
 3. What do you mean by Surgical Shock and give homoeopathic management. [18]
 4. Discuss the role of homoeopathy in the case of Fracture. Describe any three homoeopathic medicines with indication. And justify the Silicea is called 'Surgeon's Knife'? [18]
 5. Compare with characteristic indications the following: [3x6=18]
 - a. Acid Nit and Phosphorus in Epistaxis.
 - b. Kreosotum and Staphysagria in Caries of teeth.
 - c. Causticum and Thuja in Warts.
-

B.H.M.S. [4th Prof.]

[Direct Course]

BF/2007/11

Practice of Medicine-A

[New Scheme]

M.M. : 90

Time : 3 Hours

*Note : Attempt all questions. Answers should be brief and to the point.
Do not discuss therapeutics aspect or indications of medicines.*

1. **Write short notes on:** [3x5=15]
 - a. Genetic factors in common diseases.
 - b. Type I hypersensitivity reactions.
 - c. Hypothermia.
2. Define Kwashiorkor. Discuss its etiology, clinical features, and miasmatic diagnosis with general and primary preventive measure in its management. [1+2+7+1+2+2=15]
3. Define Type II Diabetes. Give its etiology and clinical features. Suggest two important investigations for the same along with its miasmatic diagnosis and general plan of management, with primary preventive measures. [1+2+6+2+2+2=15]
4. What do you mean by Cushing's syndrome? Discuss its causes, clinical features, complications, investigations with its miasmatic diagnosis and general management. [1+1+6+2+2+1+2=15]
5. What do you understand by Hyperthyroidism? Discuss its causes, clinical features, complications, investigations with miasmatic diagnosis and general management. [1+1+6+2+2+1+2=15]
6. **Write notes on:** [3x5=15]
 - a. Long term complications of DM.
 - b. Anorexia nervosa.
 - c. The Thyperlipidaemia.

B.H.M.S. [4th Prof.]
[Direct Course]
BF/2007/11

Practice of Medicine-B
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Define Jaundice. Write its types, clinical features and laboratory investigation with management. [15]
2. Write aetiology, diagnosis and management of Psoriasis. [15]
3. Define Nephritis. Explain difference between Type-I and Type-II nephritis. [15]
4. What is Hemiplegia. Write its causes, diagnosis and management. [15]
5. Define Anaemia. Classify Anaemia. Write diagnosis, complications and management of Iron deficiency anaemia. [15]
6. Write short notes on: [15]
 - a. Leucoderma.
 - b. Infantile Convulsion.
 - c. Gout.

B.H.M.S. [4th Prof.]
[Direct Course]
BF/2007/11

Practice of Medicine-C
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Give indications for five homoeopathic medicines for Diabetes Mellitus. [15]
 2. Give the indications for five homoeopathic medicines for Anaemia. [15]
 3. **Write the indications of following medicines in Pneumonia:** [15]
 - a. Ant. tart.
 - b. Phosphorus.
 - c. Ipecac.
 - d. Amm. Carb.
 - e. Kali Carb.
 4. Write the indications of 5 homoeopathic medicines for Hypertension. [15]
 5. **Give indications of following medicines in Hepatitis:** [15]
 1. Chelidonium.
 2. Bryonia.
 3. China.
 4. Podophyllum.
 5. Nux Vomica.
 6. Give the indications of five homoeopathic medicines in Gout. [15]
-

B.H.M.S. [4th Prof.]
[Direct Course]
BF/2007/11

Organon of Medicine-A
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. What is the general scheme of Case taking. How will you interrogate the patient for finding out the Simillimum? [18]
2. Write your views on concepts of Health. What are the factors modifying the health? [18]
3. What do you mean by Specific remedy? And what are the criteria for the repeating of homoeopathic remedies. [18]
4. Differentiate between: [18]
 - a. Diagnosis and Anamnesis.
 - b. Suppression and Palliation.
 - c. Medicine and Remedy.
 - d. Scope and limitation of Homoeopathy.
5. Classify the Hahnemann's Chronic disease. How will you treat the true Chronic diseases? [18]

70

[Direct Course]

BF/2007/11

Organon of Medicine-B

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. What symptoms rank highest in analysis of the Case? When does particular symptom become general. [15]
 2. Write in detail about Temperament. How it helps in therapeutics. [15]
 3. Discuss the concept of disease in homoeopathy. [15]
 4. What is Kent's explanation about Vital Principal. [15]
 5. Susceptibility is basis of Potency selection. Justify. [15]
 6. Write short notes on: [15]
 - a. Scope of homoeopathy.
 - b. Indisposition.
 - c. Local application.
-

B.H.M.S. [4th Prof.]
[Direct Course]
BF/2007/11

Homoeopathic Materia Medica-A
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Describe the drug picture of Phosphorus. [15]
2. Describe the Heart symptoms of the following medicines: [15]
 - a. Gelsemium.
 - b. Digitalis.
 - c. Cactus G.
3. Write down the Skin symptoms of the following medicines: [15]
 - a. Rhus tox.
 - b. Dulcamara
 - c. Sepia.
4. Write Female symptoms of the following medicines: [15]
 - a. Bryonia Alb.
 - b. Bovista.
 - c. Ignatia.
5. Write about types of Materia Medica. [15]
6. Compare the following medicines: [15]
 - a. Thuja & Sulphur - Skin
 - b. Acid Phos and Croton tig - Diarrhoea.
 - c. Actea Spicata and Kalmia Latifolia - Rheumatism.

72

[Direct Course]

BE/2007/11

Homoeopathic Materia Medica-B

[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. **Write down Red line symptoms of:** [15]
 - a. Anthracinum.
 - b. Bacillinum.
 - c. Capsicum.
 2. **Write down Respiratory symptoms of:** [15]
 - a. Rumex.
 - b. Sambucus.
 - c. Sabadilla.
 3. **Write down the Heart symptoms of:** [15]
 - a. Crataegus.
 - b. Rauwolfia serpentine.
 - c. Spigelia.
 4. **Describe Rheumatism of the following medicines:** [15]
 - a. Rhododendron.
 - b. Rannunculus Bulbus.
 - c. Medorrhinum.
 5. **Describe the following medicines as under:** [15]
 - a. Lac Can - Breast symptoms.
 - b. Mezarium - Skin symptoms.
 - c. Ratanhia - Rectal symptoms.
 6. **Describe the common characteristics of "Acid group" and describe Carbolic Acid.** [15]
-

B.H.M.S. [4th Prof.]
[Direct Course]
BF/2007/11

Community Medicine
[New Scheme]

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Discuss the concept of Well-being and Important health indicators.
[7+8]
 2. Write clinical features, causes and prevention of common Vitamin deficiencies in India.
[15]
 3. **Write short notes on following:**
 - a. Effects and prevention of vitiated air. [7]
 - b. Disinfection of Water at rural level. [8]
 4. **Write short notes on following:**
 - a. Diagnosis of a case of Kala-Azar. [7]
 - b. National Anti Malaria programme. [8]
 5. Explain the role of homoeopathy in Prophylaxis. [15]
 6. Classify contraceptive methods currently being practiced in India. Which do you think is most acceptable and why. [15]
-

B.H.M.S. [4th Prof.]

**[Direct Course]
BF/2007/11**

**Case Taking & Repertory
[New Scheme]**

M.M. : 90

Time : 3 Hours

Note : Attempt all questions.

1. Explain Boenninghausen concept of totality of symptoms. [15]
2. Explain the advantages of using a Repertory. [15]
3. Explain: [15]
 - a. Subjective symptoms.
 - b. Objective symptoms.
 - c. Rubric.
4. Explain indications for the use of: [15]
 - a. Kent's repertory.
 - b. Boenninghausen's repertory.
 - c. Boger's repertory.
5. Explain in brief: [15]
 - a. Card repertories.
 - b. What is a symptom
6. Explain in brief: [15]
 - a. Phatak's repertory.
 - b. Eliminating symptoms.
